

New Short Murder Charge Filed in McCumber Case

WHEN Mrs. Verdie McCumber was arraigned in municipal court Tuesday on a first degree murder charge, a small and slender woman, she was read the rights of the accused by Clerk John H. Howell to obtain the full details of the alleged crime.

It was the listeners' surprise, however, that only a dozen words were read. With the exception of the printed form of the affidavit blank on which it was drawn, the charge read: Mrs. Verdie McCumber did and of deliberate and premeditated killing kill one Hatley McCumber.

British Suggest Capital Ship Discussion at Next Parley

CUT IN TONNAGE AND ARMAMENT IS URGED

Feel That They Cannot Go Much Further on Limitation of Numbers

ADMIRALTY AIDING

Progress in Conversations on Cruiser Reduction is Being Made

LONDON, Aug. 2.—The British admiralty will welcome heartily the inclusion of the discussion of capital ships in the forthcoming naval conference rather than wait for the 1931 conference provided by the Washington naval treaty.

This statement was made in International News Service this afternoon by an informant whose name and position in official circles carry unqualified credit and authority. He continued:

"Our position on capital ships is that we cannot go much further regarding the limitation of numbers

but we are anxious to go the limit in reduction of tonnage and armament and also considerably limit the life of capital ships."

Says Reports Londoners: "Our position is that the capital ship must be impervious to attack by air or under water. For this we regard the present limit of 35,000 tons and 16 inch guns as unacceptably large."

Our idea of sufficiency is a ship carrying 12 inch guns and remains in tonnage from 25,000 to 27,500. Compared with present size such ships would mean a saving of 10,000 tons in cost without loss of efficiency.

Calculated reports from Washington that France and Italy might object to discussion of capital ships at the proposed conference at Barcelona.

"It is certain of course that possible agreements between France and Italy regarding naval equality may present us with greater difficulty than anything else at the conference, but it will not be regarding capital ships."

Progress Made: "The informant of International News Service revealed that capital progress has been made between Britain and America in discussion of the cruiser issue. He expressed confidence that a satisfactory solution will soon be forthcoming. The naval authorities went on:

"As regards cruisers the discussion has been proceeding with extraordinary smoothness and celerity. You can say that, within a very short time, we are absolutely confident of reaching a formula which will prove an absolute solution."

(London Note)—It was the dinner at the United States and Britain over dinner that covered the subject of the Geneva naval limitation conference arranged for in 1927 by President Coolidge.

Being New Ambassador: American Ambassador Charles G. Dawes and Hugh Gibson, American ambassador to Belgium, brought a new atmosphere to these discussions which has placed them upon a different footing than heretofore—to such an extent as some times wonder whether, perhaps, they are ahead of their own president in their views.

The British admiralty is not in the least antagonistic to these naval talks. On the contrary the admiralty officials are giving the government every aid and assistance in their power and are doing it with the utmost willingness." (Copyright 1927 T. N. S.)

COUNTY CATTLE TEST PROGRESSES RAPIDLY

Work Nearly Completed in Two Townships, Green Camp Comes Next

Tuberculin testing of Marion county cattle under the county plan is progressing rapidly according to Dr. J. F. Grimes, a supervisor of milks and meat. Two townships are nearly completely tested, and plans are being made to begin on the third next week.

Plans for testing the first stage of the tuberculin test has been completed for some time while the final tests in Wayne township are now being tested. Green Camp township is next on the schedule.

Dr. Grimes is working under the state department of agriculture as at the head of the work in this county. The test given by Dr. Grimes consists of injecting a few drops of a prepared fluid under the skin of any bovine and checking the spot where the test was injected a few days later. If there is any reaction the animal is isolated and later killed. The state pays compensation for animals killed because of the disease.

In order to bring the test to any district which is Marion county consists of one township it is necessary to create a petition among the owners of cattle and secure the signatures of farmers owning 75 per cent of the stock in that district. Not all of the townships have complied with this requirement. But officials hope to reach every herd in the county before the tests are completed here next year.

ACCIDENT RESULTS IN THIRD LAWSUIT

\$825 Damages Asked as Outcome of Collision of Marion and Bucyrus Cars

For the third time in Marion history a suit has been filed in the Marion circuit court. On July 1, 1927, involving Marion and Bucyrus cars. A hearing in this case is to be held in court on August 1st. The case was caused by the collision of a Marion car, managed here by F. A. Whitcomb and Lawrence Schmitt, of Lawrence, and a Bucyrus car, managed by the Marion and Bucyrus cars.

Accident and was filed by Schmitt and the Marion and Bucyrus cars. The suit is for \$825 damages.

On July 1, 1927, following a two-day hearing in the Marion circuit court, a judgment for \$1,000 was given to the Marion car, managed here by F. A. Whitcomb and Lawrence Schmitt, of Lawrence, and a Bucyrus car, managed by the Marion and Bucyrus cars.

ADDISON BATH PLANS Fun for Youngsters A surprise as in street for all the children who visit Crystal Lake Sunday. Addison Bath, owner of a well known and talking bath, has been entertaining the children by dressing dolls to describe in scene in the bath. Last Sunday one of his smaller dolls was found swinging in a hammock on a tree at Crystal Lake.

ARMY OF MOCCASINS Along Florida Road TALLAHASSEE, Fla.—A considerable army of moccasins was found by two Tallahassee motorists recently during a trip from here to a nearby city, and after the battle smoke had cleared 10 reptiles lay dead. The motorists escaped unscathed.

The battle began after the men ran over two large snakes, snakes on the highway. When they stopped to make sure the snakes were dead they were greeted by 17 young moccasins coming to the aid of their parents.

The travellers succeeded in killing all 19.

Lake Cottage of Marion's Firemen and Policemen is Attraction for Motorists

New Recreation Quarters of Local City Employees at White's Landing Provide Destination for Sunday Pleasure Trip. Visitors from Home Town Welcome

Different members of the family usually have many different ideas on what constitutes a pleasant Sunday drive. The diplomatic husband will plan one in such a manner that all will be contented, if possible.

To do this extra amount of different kinds must be included in the drive. Some members of the family will enjoy the ride and the scenery, but others must have an "easy" drive and be either "going" or "coming back" before they are not satisfied.

Of especial interest to Marionites is the firemen's and policemen's cottage on Lake Erie. Well paved roads help make the drive to this cottage an enjoyable one. Although the trip may be made in one afternoon it is best to start in the middle of the morning, with a well-filled picnic basket as there are many ideal picnic sites near the cottage.

Open for inspection. If the cottage is open on the particular Sunday you choose for the trip you will be invited to inspect its interior, a sight that is well worth the drive.

The cottage is located at White's Landing, on Lake Erie about 12 miles west of Sandusky. There is an ideal place for bathing and fishing. Bunks are available.

For those who decide to take the trip the most recommended route will be given in detail, together with some of the more interesting features of the trip.

Route No. 1 furnishes road for most of the trip. This should be followed through Thurgate, Chatsfield, Carothers, Caroline, Attien and Siam about 15 miles beyond Siam, on the same route is the Buffalo trail. At this point notice the reading on your speedometer, and follow the same route (No. 1) exactly 10 miles farther to a road junction. As some speedometers will vary slightly, the driver should watch for an east and west pole approach, namely that distance above the Buffalo trail. A filling station is located on the northeast corner of the junction.

Intersection and two large telephone cables extend on the east and west road. This pole should be taken to the west for several miles to Lake Erie.

Another Point of Interest. If a car has been seen by the owners of the lake, the somewhat famous blue hole, a half mile north of Chatsfield, is well worth a visit. Follow the signs and the blue hole may be seen at a small charge.

A pit extending almost due north from Chatsfield should be followed a few miles north to its end and to the junction of state route No. 12. At this junction, on the southwest corner may be seen the remains of an old factory where corrugated cardboard packages, boxes were made. A few miles before the corner is reached, on the left of the road, are large fields where cultivation work is being done for the manufacture of cement.

Route No. 12 should be followed from the junction a little more than a half mile where it makes a rather gradual left turn. Another road lying straight ahead and north of a filling station on the curve should be followed. After several turns also be followed, the road is a gravel made and the entrance to Crystal Rock Park is just a few minutes' drive directly to White's Landing. As directly to the cottage stands in the midst of a group of trees, it is best to find its exact location although it may be seen from the landing, its location is as follows:

If at all possible the party should locate and talk to Lewis White, owner of the several acres at the landing, named for him. This tract of land has been in the possession of the White family for nearly 70 years, and no effort to make the land well and land there has been made. The location of the land is on the south side of Sandusky Bay.

One of the most remarkable natural endowments of White's Landing is the natural flow of spring water from wells, which are drilled to a depth of about 50 feet. Sufficient pressure to furnish a natural fountain in every yard is available, and nearly every cottage in the district has a decorative fountain and natural refrigerator. The latter being made by passing the water through coils in an icebox.

Most of the cottages near White's Landing are partially built up with boulders, rock, a rough and hard rock formation, which gives the buildings an unusual appearance.

ARRAIGN CONSTABLE FOR MURDER OF MAN
Authorities Hear Conflicting Stories of Fatal Shooting in West Virginia

WAYNE, W. Va., Aug. 2.—While conflicting stories were being studied by authorities, Wayne county officials moved to bring Neph Fields a constable before Magistrate C. B. Walker today for a preliminary hearing in connection with the slaying of Andrew Justice, 42-year-old lumberman of Louisiana, by a constable, a remote Wayne county constable.

Constable Fields is said to have admitted killing Justice Wednesday night but declined to stand in self defense after a gun battle.

However, Justice's brother, Virgil, told state police an entirely different story, according to State Police Hall. He said that he and his brother were enroute to Louisiana from Wayne county.

A car passed and attempted to block the road ahead of them. Justice sawed the car and as he did so a shot rang out. Virgil declared Andrew Justice answered the shot and then sped for Crum with the other car in pursuit. A flat tire halted the Justice auto in front of a lunchroom.

Andrew Justice ran into it just as the other car drove up. Pleading for his life, Andrew dashed into the back room and was followed by the constable, Virgil told state police.

Three shots were heard and Andrew Justice's body was found. Fields said he fired only when Justice tried to flee. S. R. Twelch, proprietor of the lunchroom, corroborated Virgil's story, state police said.

Out in Hollywood.

BY O. MINTIRE.

Hollywood, Aug. 2.—This is a strange old town, that has no equal in the "entertainment" part of the world. It is a community solely to the movie and its stars. The humble are completely wrapped up in the dreams of its great. Nothing else matters. I have often wondered if cinema people half appreciated the stimulating quality of this community in inspiring their play-acting habit—but it is inspiring bliss. There is just as the stage needs fodder for its legends, so the screen needs it. It is fed here with a goodly supply in the event of Hollywood. Its legends go wrong. They will take up the cudgels for the one who have toppled from high places at any time day or night. I have frequently watched the most famous actors and actresses pass along Broadway without a need of a word.

Probably twenty movie stars pass along a given block of Hollywood boulevard to a star who passes along a given block of Broadway and yet each one out here is a monarch. The block along an electrical line. Clerks will leave customers to rush in the doors and leave.

Pedestrians will suddenly halt to give curiosity. Corner groups will nod and whisper. Newsboys stop shouting. Chauffeurs whistle to attract attention. A car is a life if it starts to move. A motor car or a crowd will be waiting outside for the exit.

This gentleness has not that quality of a gawkiness so prevalent among the citizens of Broadway. It is an observance. A reverence. People are actually awed and hushed by the approach of the famous. Hollywood tradesmen seem little interested in any other but film business.

One could visit the storefronts of Hollywood. It would likely be found that not one of those not allied with the movie industry drifted here in response to its lure. It is captivities and holds them. They have no notion they may too some day gaze down from the heights. And so the movie.

A highly curbed delicacy along the boulevard is freshly popped corn, salt and butter, and for one who can make a meal with a hatful at an hour of the day or night the appeal of the street is tripled.

habit. The habit becomes the garb of the unreliable and the broken-down.

Chic Star Patterns

Practical and Simple

"Chic Mid-Summer Style"

Long slender lines are achieved in the styling of this delightful frock which may be made with or without sleeves. The pointed bodice section and corresponding skirt yoke are unusually attractive and very new. The skirt pleats are cleverly held in place by a few rows of stitches.

Many fabrics suggest themselves for the development of Design 1745. Silk crepe, pongee, shantung, silk, pique or rayon may be used with equally lovely results. All white, a color or a print may be chosen.

May be obtained only in sizes 18, 20, 22, 24, 26, 28, 30, 32 and 34. Size 18 requires 3 1/2 yards of 40 inch material, with sleeves, 2 1/2 yards if sleeves are omitted.

This model is easy to make. No dress-making experience is necessary. Each pattern comes to you with simple and exact instructions, including yardage for every size. A perfect fit is guaranteed.

COUPON

This pattern will be sent on receipt of 15 cents. Make number, name, address, etc plain. Send to the pattern department THE MARION STAR, HURDAG, Pattern Fashion Syndicate, Inc., 214 West 17th St., New York City.

HOTELS DO IT RIGHT— USE SPECIAL PRODUCT

Do you know how many dollars a year it is costing you to use "pot-and-pan" cleansers on painted and enameled surfaces? Do you know what you're wasting in time and labor, or your home is missing in appearance? Great hotels, hospitals and office buildings could tell you. They're vitally interested in these things. They've used Wyandot exclusively for years.

Wyandot is now put up in packages for home use. It cannot scratch painted or enameled woodwork. It preserves and heightens the gleam and gloss. It makes cloth, sponge or mop speed over the surface as effortlessly as a thistle-down in a breeze. It is so easy to use that you can scarcely believe it cleans so thoroughly.

Wyandot contains no caustic soda or harsh abrasives. It can't hurt your hands. Any surface that water won't hurt can't be hurt by water and Wyandot. Try it. Only 15c (covered by money-back guarantee) at your grocer's. Keep this notice as a reminder.

LOW POINT SEEN IN HOG CYCLE IN 1929

O. S. U. Man Calls on Swine
Growers To Give Thought
to Future

COLUMBUS, Aug. 2 — Reports indicate that this year will see the

low point of another hog-producing cycle in the United States, and a time when Ohio swine growers will take particularly careful thought for the future, according to O. S. Arnold, of the rural economics department of the Ohio State University here.

"One of the greatest dangers in a period such as this is that too many farmers will become enthusiastic about the hog business and increase their breeding next year, entirely too much," says Arnold. "It will be all

right to watch closely the trends shown by the government hog survey, including market reports. There is a great tendency for farmers to jump into the hog business just at the wrong time unless they watch these factors closely."

Arnold points out that the June 1 hog survey made by the federal government shows that the number of hogs bred for fall farrowing this year is just about the same as that of last year. "We have been decreasing the number of hogs in this country for about two years now, and if the same number is farrowed this fall as a year ago, it will be the first time for two years that we have not shown a decrease. This seems to indicate that we are just rounding the bottom of the hog-producing cycle and it

seems quite probable that there will be an increased breeding this fall for next farrowing. Hog prices have been fairly good during the past year and this always causes an increased interest in hog production. The increased breeding for fall farrowing, indicates no change from a year ago, would indicate that the number of hogs arriving at the market next spring and summer should not be greatly different from the number arriving at the present time.

"With our lighter receipts this year hog prices are from \$1 to \$1.50 higher than at this time last year. The fact is generally known that we go through periods of low hog production with relatively high prices, and then follow two or three years later with a period when our supply of hogs is large and prices are low."

Two Men Are Injured In Mt. Victory, Iberia Accidents

FARMER HURT WHEN TEAM RUNS AWAY

Mt. Victory Man in Critical Condition Following Accident in Field

INJURED INTERNALLY

Knocked Down After Heading Horses; Hit by Manure Spreader

Two accidents in the north central Ohio district this week have resulted in narrow escapes for two farmers of Hardin and Morrow counties. Roy Coler of Mt. Victory is in critical condition at home after his team ran away while Alfred Hurt of Iberia escaped serious injuries when he was caught between a tractor and a separator.

MT. VICTORY, Aug. 2.—Roy Coler, 40, farmer of three miles south of here, is in critical condition at his home after being run over by a team of horses pulling a manure spreader. The accident occurred yesterday while Coler was working in a field on his farm.

Attending physicians fear internal injuries in addition to a broken collar bone, fractured arm and badly bruised back. A weak heart makes his condition more serious.

Coler was talking to a neighbor after trying his team to the fence. The horses became scared and dashed down the field. Headed by Coler, the horses failed to stop, knocking him down. Two wheels of the spreader passed over his body.

Iberia, Aug. 2.—Alfred Hurt, farmer of near Iberia, is recovering from injuries about the arm and chest today after being caught between a tractor and separator Tuesday.

Hurt was injured when the clutch on the tractor which he was backing into position failed to release. When the machine did not stop he was caught, narrowly escaping serious injuries.

He was working on the Raymond Messinger farm three miles southeast of here.

MRS. ROSE SCHULER DIES IN BUCYRUS

Death Follows Long Illness with Heart Trouble; Born in Bismark

BUCYRUS, Aug. 2.—Mrs. Rose Anna Schuler died at her home 525 West Main at this morning at 8 o'clock. Her death was caused by enlargement of the heart. She had been in ill health for some time.

Mrs. Schuler was born in Bismark, South Dakota, May 20, 1891, and she was the daughter of Anna Bithing and John Wither. She was married Nov. 21, 1911, to William Schuler who survives with two children, Anna Marie Rose, London, Virginia, Rita and Joseph all at home.

She was a member of Holy Trinity church from which funeral services will be held. Arrangements for the services have not been completed.

NEW YORK PLANNING ADDITIONAL SCHOOLS

Increased Enrollment Shows Need of Another Spurt in Construction

NEW YORK.—That plans to care for the increase in the attendance at public schools throughout this city are well under way was disclosed when a commission recently made showed 118,955 "sittings" planned or contracted for.

This is the highest number of sittings planned or contracted for in this city at one time. Reflected in the high figure are the attempts to cope with the current demand and to care for the natural increase which can be figured upon to occur within the time necessary to complete construction of present contracts.

Sittings under contract on July 1 totaled 75,385 which is only slightly under the record figure, 75,980, reached in May of this year.

These figures point to another spurt in the school construction program and may be compared with the 1925 to fill the needs at that time. In that year a comprehensive schedule calling for the outlay of millions was swung through the city's legislative bodies and, in May, 1925, 115,281 sittings were planned or contracted for and of this number 90,290 were actually in construction.

The sittings figures as recorded in the preliminary reports of the board of education are watched closely by prospective teachers because they reflect the need for teachers that may be expected upon the completion of the increases in the school system.

Guide's Burrow Falls Over 50-Foot Cliff

PORTLAND, Ore.—The "hard-boiled" nature of the Army mule easily be accounted for if all its dour ancestors are as durable as the long eared species of the tribe which fell over a 500-foot cliff on a trail in the Cascade forest east of Eugene, righted itself and came out on its own power with only an aggravated twitch of its rope-like tail.

The burrow in question belongs to Doc Wright, packer and guide. The animal, he said, was the last in a string in a pack train and while traveling over Fossil point slipped over the dugway. It dropped almost straight down for 500 feet, rolled another 500 feet and lodged in a clump of trees.

Released, the animal got to its feet and the next day was doing regular duty in the pack train.

CHAUTAUQUA STARTS DRIVE FOR TICKETS

Subscriptions Will Be Used To Finance 1930 Program

ASK FOR \$2,400

Attendance This Season Reported Much Larger Than Last

KENTON, Aug. 2.—Annual campaign to dispose of 1930 season tickets to finance an eight-day chautauqua program in 1930, will be launched tonight by the Hardin County Chautauqua association.

Efforts will be made to sign up sufficient subscribers during the week's session to eliminate the necessity of carrying subscription on through the remainder of the chautauqua program.

Through the sale of the advance ticket allotment, directors are assured of sufficient financial backing for the ticket for the coming year. Receipts taken in at the gate during the chautauqua week are utilized in defraying current expenses including:

Rent of chautauqua grounds, \$200; labor costs, \$100; all advertising and other miscellaneous items, \$250; and free taxi service to and from the grounds, \$50. The estimated cost for ticket for the eight days is placed at \$2,400.

Attendance at sessions this year are larger than last. William Kraus, association president, stated today in expressing appreciation for the cooperation patrons were giving. He asked that this spirit be continued and that citizens again subscribe for the 1930 tickets without delay.

Plans for the solicitation are to be made at a meeting of the board of chautauqua directors this evening at 7 o'clock.

Meditations OF A Married Woman

BY HELEN ROWLAND

The "Gallumping Grouch" Every now and then a man goes gallumping around the house and it would take a master mind to discover what is the matter with him. "Gallumping" is an outward expression of an inward turmoil, composed of resentment, self-pity and a common or garden variety. It is a strictly masculine affliction.

A woman may have hysteria, emphysema, temperamental nervous or a myriad of other things, but to accuse her of "gallumping" would be as insulting as to accuse her of having a bass voice or a mustache. It is so unfeminine.

Lots of men have never had fallen arches, colds or hay fever, but a man who has never had a cough, sneeze into the sleeve, and gallumped off to the attic or the garage and banged pounding things, just isn't human.

Whistling, to keep from swearing, is another way of working off the gallumping grouch. Glaring at the newspaper, shutting the door, and trying to stare the food on his plate out of countenance are still other concrete manifestations of this abstract emotional maladjustment.

There are as many varieties of masculine grouch as there are of roses; and some of them are as highbrowed as the daisies. But the gallumping grouch has a woman positively stupefied. She never knows how or why it started, nor when or where it will end. If she could only X-ray a man's mind, and discover nothing tooth, or an aching can't! But, half time, the man doesn't know himself!

Most women are familiar with the common or garden variety, from which the most capable and sweetest-tempered husband suffers occasionally. When his dinner has disagreed with him, or the rain has spoiled his roof, or something has gone wrong at the office.

And people every woman has been up against the strategic grouch, with which a man tries to foretell a woman's wrath, by attacking first, when he knows that he has deserted it, and suspects that he is "in for it."

Before she can get her argument and open her lips he has "cashed" her with some trivial accusation, put her on the defensive and robbed her of her ammunition. "Catty work!"

All women have suffered from the matter-grouch—that maddening mantle of fumed virtue in which a man wraps himself for days and days after a domestic bout in which he has been worsted. When one of these has lasted for forty-eight hours, almost any wife will gladly beg her husband to forgive her for having found him out. Anything to lift the fog!

But that dumb, depressing mist of gloom, the "gallumping grouch," is still a mystery which no woman will ever solve.

You can't tell what's the matter with a man, nor whether to feed him flattery, kisses, sympathy, or floor pills, when he doesn't know what's the matter with him, himself, can you?

That's the "gallumping grouch!"

"FEELING FINE SINCE TAKING NEW KONJOLA!"

Two Years of Stomach Trouble Quickly Brought To An End by Modern Compound

200 at Reformed Church Sunday School Picnic

GALION, Aug. 2.—More than 200 members of the Reformed Sunday school enjoyed a picnic and social time at Sugar Grove lake yesterday. Games and contests with prizes for the winners took place and a picnic supper was served at 6 o'clock.

MR. CLARENCE INHERST

"I am feeling fine since taking this new Konjola," said Mr. Clarence Inherst, Route No. 1, Stone Creek, Ohio. "I suffered from stomach trouble for two years, and no medicine was able to relieve me. I was taken down with the flu, and my nerves were affected. I lost weight and strength. I was twenty pounds below my normal weight. I had been disappointed so often I lost all faith in medicines. "But I had not reckoned with Konjola. What a surprise this new medicine gave me. I feel like my old self again. I eat anything I want, my nerves are calm, and I am gaining in weight and strength. Konjola sure has done wonders for me, and I am glad to recommend it." Konjola is sold in Marion at Stump & Sams drug store and by all the best druggists in all towns throughout this entire section.—Adv.

Every Room In Your Home Can Be Warm And Comfortable All Next Winter --- Sale of Moore's Parlor Heaters

Remember last winter how you promised yourself you'd get rid of those ugly, old-fashioned stoves that ate up the coal as fast as you put it in? B-r-r-r! Remember how you'd shiver when you pushed back a little from the stove—and the mere thought of going into another room was enough to give you the chills?

You might not have known the name but the Moore's "Seventeen" is the heater you promised yourself. The Moore will heat every room in your home to a uniform, comfortable temperature—no more "oven to ice-box" changes as you walk from room to room—no more chills up and down your spine while your face blisters—The Moore is scientifically constructed to CIRCULATE warm, moist, healthy air through every room in your home.

Mrs. Busy Housewife:
This Is How The Moore's
"Seventeen" Helps You!

Holds Fire Overnight

Wasn't that cold, early-morning struggle with a "dead" fire enough to spoil your whole day? The Moore's Seventeen will start your day off RIGHT. Just open the damper and in a few minutes your home is warm and comfortable. You'll even REST better at night knowing that you won't have to bother building a new fire—Morning after morning throughout the whole winter for many years you'll be thankful you bought your Moore's.

No Dust, No Dirt, No Smoke

Your cleaning worries end when a Moore's enters your home! What a boon to you, Mrs. Busy Housewife. Moore's Seventeen is made with an air-tight ash-pit door that imprisons all the dust and dirt—no great clouds of smoke can pour through your home covering everything with a layer of dirt and soot. There's a handy place on side to shake the fire, too, not even necessary to open the ash-pit door!

Takes The Place of 2 or 3 Old-Style Coal Wasters

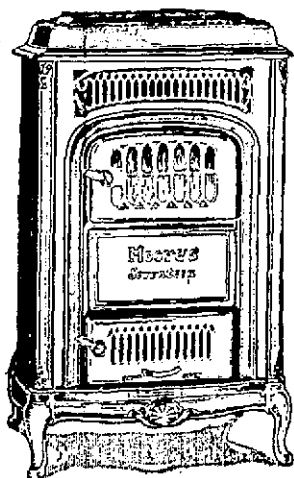

Gone are the days of dragging heavy hods of coal from room to room, stoking 2, 3 or more "ever-hungry" coal stoves. The Moore's "Seventeen" central heating plant heats your home more efficiently and uses no more coal than ONE of your old-fashioned stoves. LESS Coal to buy—LESS coal to carry—LESS WORK all around!

The Lennon Guarantee

Buy during this sale—we'll reserve the Moore's heater most suited to your needs and deliver it any time you wish before cold weather sets in. Order NOW—save up to FIFTEEN DOLLARS. And REMEMBER even at end-of-the-winter season you'll not be able to buy a Moore's "Seventeen" for less than they're priced in this sale!

Choice of Two Sizes

The Moore's "Console" is ideal for small homes or where it is not necessary to heat all the rooms of a large home. The Moore's "Grand"—built to heat larger size homes efficiently and economically. Investigate the Moore's, too, for heating offices, stores, repair shops, etc.

\$89 \$111

Enamel Or Plain Finish

Beautiful mahogany finish—three coats of wear and heat-resisting enamel, each coat baked on separately, giving the Moore's heater an attractive appearance that rivals a piece of fine furniture, and will harmonize with the furnishings in your home. If you prefer you may also choose the Moore's in plain black.

Full Line of Repair Parts

During the past six years hundreds of homes in this vicinity have purchased Moore's heaters from us and although we carry a complete stock of repair parts for their convenience we've never sold five cents worth of repairs. The first cost is the only cost when you buy a Moore's heater.

We'll DOUBLE Your DOWN Payment!

Up To \$15 During This August Sale of Moore's Heaters. Hurry!

That's just EXACTLY what we'll do. We let you decide for yourself how much you'd like to save on the cost of your Moore's heater. If you pay \$5 down we'll match it with another \$5 making your down payment actually TEN DOLLARS—if you pay \$10 down we'll make your down payment actually TWENTY DOLLARS—Even if you pay \$15 down we'll add ANOTHER \$15—Making your down payment THIRTY DOLLARS.

YOU CAN SAVE

\$15

It's just like putting \$15 in the bank or you may use the \$15 to purchase MOST of the coal you'll need next winter. And that's not all you save with the Moore's heater—You'll save that much over and over again in coal bills alone—In ADDITION: No more costly repair bills, (the Moore's is built to last a lifetime) no more carrying heavy hods of coal from room to room—Even DOCTOR bills should be less for the Moore's makes every room warm and comfortable with healthy, moist heat.

RETIRED RACKETEER "PUT ON THE SPOT"

Arthur Cullen Found Slain in
Philadelphia; Believed
Victim of Rivals

PHILADELPHIA, Aug. 2—The bullet-riddled body of Arthur Cullen, retired racketeer and self-styled "king of Philadelphia gangsters," was found lying in an alley near Fairmount park at 2:50 o'clock this morning. Police believe he was put on the spot by rival gangsters.

Cullen was known as the "Al Capone of Philadelphia." He even had a reputation for being a man in the fashionable and rich of Overbrook only a block away from the home of Mayor Kendrick and was reported to have made millions in running liquor before he retired about a year ago. Cullen was arrested a year of this during his sensational career but never was convicted.

Racketeer Shot to Death by 2 Men

BRADDOCK, Pa., Aug. 2—James Bruno, 48, racketeer and police court character, was shot to death here today by two men who called him from his bed to talk over a "proposition" according to a statement made by Bruno just before he died in Braddock General hospital police said.

County detective feared the killing may be removal of a bootlegger, one that has remained dormant for more than two years. Shot in the chin and abdomen, the racketeer was brought to the hospital by persons residing in the vicinity of Mooly and Mar, streets, where the shooting took place. He told a story of being backed against a brick wall by two men while the other stood a few feet away and executed him with shots from a shot gun.

Reserve Officers Killed When Struck by Tram

DATON, Aug. 2—A reserve police officer, Capt. H. W. Owens, and his brother, Reserve Capt. Henry W. Moore of New York, were fatally hurt when an automobile in which they were riding was struck by an interurban car near here late yesterday. Moore died today. They had been at Wright field since July 28 when they enrolled in a course in the war planes division school.

Lifer for 53 Years, Jesse Pomeroy Sees Modern World for First Time

BOSTON, Aug. 2.—A modern Rip Van Winkle emerged from among "the living dead" in Charlestown State prison, and from the open window of a flitter sedan saw the modern marvels of a speeded up world.

The modern rip was Jesse Harding Pomeroy, 71 years old, called the world's most notorious "lifer."

For 53 years, 40 of them in solitary, Pomeroy has been an inmate of the state prison, but today because of failing health he was transferred with five other prisoners to the infirmary at Bridgewater state farm, 24 miles south of Boston.

When the order of transfer arrived Pomeroy walked down the

main stairway of the prison and out into the yard. Neither looking to the right or left and making no statement, the "lifer look" a seat in the rear of the sedan.

Without more ado, the car swept out of the prison yard and entered the dense traffic lanes over prison point bridge.

Pomeroy glanced with a fright-

ened look on the modern automobile.

When Pomeroy entered the prison 53 years ago the road over which he was driving was a muddy street. Today he swept onto the broad boulevard on the Cambridge shore of the Charles river.

The aged "lifer" frequently gazed with awe across the Charles at the massive buildings of Boston clustered along the river and massed along the skyline.

When the city had been circled, the automobile crossed the Charles into the traffic lanes of the Fenway, where Pomeroy for the first time in half a century

gazed on the beauties of nature and summer.

RADIO FOR HOOVER

Tower for Transmission and Receipt of Messages Erected

WASHINGTON, Aug. 2.—A radio tower for the transmission and receipt of messages is being constructed near President Hoover's fishing camp in the Blue Ridge. It was learned today. A small mountain peak near the camp is being used for a base.

An airplane marker also is being installed to serve as a guide for fliers who drop mail and newspapers at the presidential camp.

Canada Leads World in Newsprint Supply

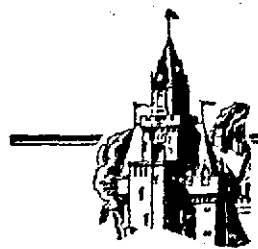

OTTAWA, Ont.—One-third of the world's total newsprint paper supply is now produced in Canada. Newsprint production in Canada amounted to 2,241,000 tons in 1928, the corresponding period of 1925. An

while the Dominion's exports reached a total of 2,207,000 tons which equalled exports of all other countries combined.

During the first three months of 1929, Canadian mills turned out 49,712 more tons of newsprint than in the corresponding period of 1928. An

average of 9,043 tons of newspapers are produced every working day, with the mills operating at 83.8 per cent capacity.

Full Cream Flavor that
Blends as it Melts—

"Chateau"

TEST it by tasting it. Every-

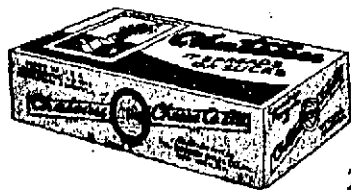

where users of "Chateau"—the new and delicious cheese food—are enthusiastic about its melt-in-your-mouth flavor. Try for yourself. Put a small piece of "Chateau" on your tongue. Savor its delicate Cheddar-like mellowness as it slowly dissolves. Note how smooth, how rich, how unlike ordinary cheese "Chateau" is in texture and flavor. That's largely because of the thick extra cream in "Chateau". The cream that gives it added food value, added delicate deliciousness. Use "Chateau" uncooked on crackers and bread. It spreads and slices like butter. Delicious with salads. Gives new distinction to dozens of cooked cheese dishes. Ask for it by name at your grocer's today. Get the recipe folder "Chateau"—12 ways to serve this new and delicious cheese food". Full of new recipes.

Croquettes prefer "Chateau"

Just to see how deliciously "Chateau" can blend with a dish always tempting, try "Chateau" Croquettes tonight. Make them this way:

3 tablespoons butter
4 tablespoons flour
1/2 cup milk
1/2 lb. "Chateau" cut in small pieces
1/4 teaspoon salt
2 egg yolks
2 tablespoons cream

Make a sauce of the butter, flour and milk. Add diced "Chateau" and stir until melted. Add the egg yolks blended with the cream. Cook one minute. Spread on a plate and cool. Shape, dip in crumbs, then in egg diluted with a little cold water, again in crumbs and fry in deep fat. Serve at once with tomato sauce.

INDEPENDENT GROCERS ALLIANCE OF AMERICA

Food Value in Ice Cream

We read the other day in The Star an editorial of Dr. Copeland, an authority in medicine, regarding milk the following:

"It is too common a belief that milk is a beverage alone. In reality it is a food and one of the most valuable of all foods. Its great place in the human dietary is due to the vital food elements it contains. It must not be regarded as merely a thirst destroyer. In certain age groups milk is almost as essential as air. At every age milk is an important food. It is conspicuous for its digestibility. It contains the building and repair materials. It possesses the required salt and vitamins."

But how many of us could drink the necessary milk every day?

Here is the answer. Eat a dish of TENDER'S Ice Cream every day, two times a day if you can. It is more than milk, it is cream and contains both the butterfat as well as the essential milk solids in abundance. There is no foreign matter in TENDER'S own make Ice Cream. It is Pure: it is wholesome; it is delicious; it is rich in butterfat and vitamins. There is no need to drink lots of milk when you can eat a dish of rich Ice Cream, that will furnish an abundance of rich elements and at the same time be palatable. Eat TENDER'S make Ice Cream. It is good for you, because it is made for taste and not for price right in their own sanitary shops.

By the way don't forget the lunches served there, here is what awaits you Saturdays, almost a gift.

Food for Talk

"SNOOK," a name that can hardly be classified as euphonious, has come to be in general use in conversation throughout Marion as well as other Ohio communities in recent weeks. Light now conjecture us to the probable fate of the well-advertised former college professor as widespread among citizens as they meet in homes, business places and on the streets.

Under ordinary circumstances, the weather at this season of the year would be the main dish in the conversational menu, but with the worried doctor's trial under way, the well-worn topic of heat and

WITH THE STAR STAFF

prospects of rain is temporarily shelved.

Not only do local citizens have newspaper reports of the sensational Columbus case to discuss, but there are numerous idle chits brought in to conversations on the basis of rumors of various kinds.

"Mrs. Saunders, who has friends living in Columbus known for a fact that Dr. Snook," is the way some of the more or less imaginary reports start.

All and all, the subject is one that is providing relief from the ordinary run of monotonous talk about commonplace matters, even though it may not tend to be morally elevating.

Not since the Pearl Bryan murder case of some 30 years ago has Ohio been so thoroughly engrossed in a criminal case. Here, as those of middle age or more will recall, went through the distressing experience of having her head removed and her body thrown into a river in the southwestern part of the state. Two young medical students finally paid for the gore deed by making their exit from this section of the universe via the hangman's noose. Reference to this phase of the case is not made, however, with any intent to cast gloom over Dr. Snook's future.

Substitutes Found

MANUFACTURE of buggies, surreys, horsecars, depot wagons and horse-drawn delivery carts has almost been annihilated in the last two decades, although there are a few struggling numbers of them still in use. Now the manufacturers of these vehicles are compelled to turn to a product which is more modern in structure and use—namely, delivery truck, bus, school buses, and truck bodies.

Such are the changes that are coming about in Marion, where light trucks are rapidly replacing

the more ancient and cumbersome horse cars.

Announcement of the Cook Wagon Co. of the manufacture of a school bus adaptable to one of several light automobile frames, marks the turn of the factory to one of the most modern phases of body building. For some time truck and delivery car bodies have been built here. The demand for buggies is gone, but there are yet a few orders for single horse cars, or for repairs to a vehicle of this kind but the manufacturer of this is rapidly being abandoned in favor of the more marketable bodies.

A local buggy sold for about \$149 more than 20 years ago. George Cook, owner of the local factory, says a survey was worth \$165. Wages were lower then. An expert blacksmith or carpenter never cost more than \$2.75 a day. An amateur painter was glad to work for \$7.50 a week.

About 1902 the first tools were purchased for the Cook plant, which was then located at Prospect. The following year, the entire building, 130 feet long, and three stories high, was moved in sections to Marion and erected at 512 North Prospect.

Watching an Expert

IN spite of the fact that in popular places, "there ain't no justice," it is repeated, as still correct that the average person, at some time or other, gets credit for his ability and his accomplishments.

However, some occupations are blessed with almost constant credit and admiration. If once mastered, at no other place in Marion have more persons been gathered to give unanimous tribute to a man's ability than at the scene of a recent steam shovel accident on West Center st.

Seated in the midst of a mass of beams, foot pedals, clutches and what-nots, this mortal manipulated the monstrous energy with a feather touch. No motion was wasted, as a sharp check on the cables snappd shut the lower part of the "boom." He was admired by men of every occupation.

No group was more enthusiastic in its praise than that of the juvenile world made up of boys of 8 to 15 years of age. "They sat or stood near the shovel for hours at a time with necks stretched and mouths agape with admiration that almost amounted to worship in their eyes."

Whether the admiring glances cast his direction were unheeded, or un-

noticed, the operator of the huge machine worked on with seldom an eye for the audience. Perhaps he has found that grandstand acts are not as effective as honest-to-goodness results.

Ritzzy Rosalie

If the sock rage continues the hosiery manufacturers will barely be able to pick out a living. Rosalie, the latest addition to her sock wardrobe is a pair of cuffless socks. They have a narrow ribbed top which holds them in place and which is of a contrasting color. Colored motifs, design patterns and sport figures are among the decorations on socks with cuffs. If one wishes to be a little more conservative there are plain colored knee length socks here.

These Popular Virginia Belle Dresses

are Better Values at \$1

because:

- they are guaranteed color fast.
- they are cleverly styled.
- they are as nearly unshrinkable as is possible.

The Thrift-Wise Woman Knows this Grant Value!

From Maine to Texas the popularity of Virginia Belle dresses has grown until thousands of women are wearing them daily. Not at all the usual "house dress" but charming tub fast frocks that really look like expensive dresses.

In these models the workmanship and fabrics are as good as ever. The styles are so attractive in both the women's and the misses' models that you will want not one dress, but many.

Tested:

Fabrics used in these dresses, tested by the Fabrics Testing Bureau were proved color fast and sun fast, and had almost imperceptible shrinkage.
